When you exercise the Currency Exchange Option¹ to convert the policy currency, the Basic Plan of the original policy will be changed to another plan under Eternal Fortune Global Series. The terms of the policy will be revised to follow all benefits, options and other policy terms as provided by such new plan, which may be significantly different from the Basic Plan of the original policy. The Notional Amount, guaranteed and non-guaranteed policy value, future premium(s) due and payable (if any), interest rate for the dividend accumulations (if any) and interest rate for Premium Deposit Account (if applicable) may be affected by your exercise of the Currency Exchange Option¹. Policy Split Option² for Flexible Asset Utilization

The policy of the Plan allows for policy split² in accordance with your life plan or change of plan, such that you can rearrange and reallocate your wealth accumulated to fit for your current planning. Complemented by the Currency Exchange Option¹, the Plan provides a more flexible solution which helps you to prepare for various opportunities and achieve different life goals.

After the end of the premium payment term, you may apply for Policy Split Option² to transfer certain policy values of the policy to a separate new policy or multiple separate new policies as you wish, provided that Policy Split Option² can only be exercised once per Policy Year. There is no evidence of insurability required for the policy split². After the policy has been split², you can also apply for change of policy currency¹ and/or change of Insured³ and/or nomination of Contingent Insured⁴, which may help you achieve greater financial flexibility and meet the needs of wealth inheritance. Please contact BOC Life at 2860 0688 for more details about Policy Split Option².

Investment Strategy, Philosophy in Deciding Dividends and Fulfilment Ratio:

BOC Life invests globally in various types of assets, in order to achieve the advantages of diversification in investment portfolio. The assets supporting the policies under the Plan mainly consist of the following:

	Mix
Fixed income instruments or interest-bearing securities	25% - 45%
Growth assets	55% - 75%

Fixed income instruments or interest-bearing securities include but not limited to government and corporate bonds, etc.

- BOC Life primarily invests in investment-grade bonds, together with a small portion of high-yield bonds and emerging-market bonds to further improve yield.
- Under normal circumstances, the major markets invested by BOC Life are North America, the Chinese mainland, Hong Kong China and other Asian developed countries.

Growth assets include but not limited to listed equity, private equity, mutual funds, properties investment, etc. BOC Life invests in diversified growth assets, which aims to achieve a higher long term return over fixed income investments.

With the aim of achieving long term investment target, BOC Life, at BOC Life's sole discretion, reserves the right to adjust the aforementioned asset allocation when there are material changes in market outlook and condition, or engage in other financial arrangements including but not limited to reinsurance arrangement. BOC Life aims at investing in assets denominated in policy's currency. If the currency by which the assets are denominated is not the same as policy currency, BOC Life may use derivatives to manage the impact of currency risk.

For the latest Investment Strategy, please refer to BOC Life website www.boclife.com.hk.

Philosophy in Deciding Dividends:

Participating insurance plans provide policy owners an opportunity to receive a share of profits attributable to the participating life insurance business of BOC Life by means of dividends, with the potential prospect of long-term rates of return. To accomplish the purpose, BOC Life invests in a wide range of asset portfolios that are prudently chosen by BOC Life to balance the risk. In general, the asset portfolios mainly consist of fixed income securities and equity investments.

The actual amount of dividends is determined by the stipulated surplus sharing approach in BOC Life's policy, which is based on the past experience of BOC Life and the long-term expectation of the participating life insurance business in the future. Dividends amount mainly depends on the overall performance of the participating life insurance business of BOC Life, taking into account factors including investment returns, claim experience, persistency and operating expense. The actual amount of dividends payable is recommended by BOC Life's Appointed Actuary according to the aforementioned company's policy and approved by the Board of Directors of BOC Life.

Annual dividends paid can be left with BOC Life and accumulate with interest. The interest rate (Dividends Accumulation Rate) is determined based on market conditions and expected investment return of BOC Life.

In light of the above factors, dividends and Dividend Accumulation Rate are not guaranteed and may be higher or lower than the values illustrated in the benefit illustration provided at point of sale.

You may browse the following website, www.boclife.com.hk/ps, to understand BOC Life's philosophy in deciding dividends as well as dividend history for reference purposes. Please note that past performance of dividend is not an indicator for its future performance.

Risk Disclosure of RMB and USD Insurance:

RMB and USD policies are subject to exchange rate risk. The exchange rate between RMB and HKD or USD and HKD may rise as well as fall. Therefore, if calculated in HKD, premiums, fees and charges (where applicable), account value/surrender value and other benefits payable under RMB or USD policy will vary with the exchange rate. The exchange rate between RMB and HKD or USD and HKD will be the market-based prevailing exchange rate determined by BOC Life from time to time, which may not be the same as the spot rate of banks. The fluctuation in exchange rate may result in losses if a customer chooses to pay premiums in HKD, or requests the insurer to pay the account value/surrender value or other benefits payable in HKD, for RMB or USD policy. **RMB Conversion Limitation Risk** - RMB Insurance are subject to exchange rate fluctuations which may provide both opportunities and risks. The fluctuation in the exchange rate of RMB may result in losses in the event that the customer converts RMB into HKD or other foreign currencies. (Only applicable to Individual Customers) RMB is currently not fully freely convertible. Individual customers can be offered CNH rate to conduct conversion of RMB through bank accounts and may occasionally not be able to do so fully or immediately, for which it is subject to the RMB position of the banks and their commercial decisions at that moment. Customers should consider and understand the possible impact on their liquidity of RMB funds in advance. (Only applicable to

Corporate Customers) RMB is currently not fully freely convertible. Corporate customers that intend to conduct conversion of RMB through banks may occasionally not be able to do so fully or immediately, for which it is subject to the RMB position of the banks and their commercial decisions at that moment. Customers should consider and understand the possible impact on their liquidity of RMB funds in advance.

Exchange Rate and Currency Risk

Foreign currency exchange rates may fluctuate. As a result, you may incur a substantial loss when you choose to convert your payout benefits to other currencies. The subsequent premium payments (if any) may be higher than your initial premium payment as a result of exchange rate fluctuations. Additionally, the conversion of your benefits to other currencies is subject to currency exchange restrictions applicable at the time when the benefits are paid. If your policy currency is not your local currency, your policy value may appreciate or depreciate when viewed against your local currency. BOC Life may illustrate a different future policy value for policies denominated in different currencies, with the expected foreign exchange movements reflected. When you view the policy values in your local currency over the long term, those illustrated differences may not be realized and may change depending on the actual foreign exchange movement. In the short term, foreign exchange movements can be large and difficult to predict. You have the sole responsibility to decide if you want to convert your benefits to other currencies.

Other Key Risks:

Nevertheless, it is subject to the automatic premium loan (if applicable) (BOC Life will advance the premium due from the non-forfeiture value as an automatic premium loan) and non-forfeiture provisions (if applicable). If the policy is terminated or lapsed due to non-payment of premium, the surrender value received by the Policy Owner may be less than the Total Premiums Paid and the Policy Owner will lose the insurance protection provided by the policy.

1. The Policy Owner may apply for changing the current policy currency to a different currency available for selection, by exchanging the policy for a plan under the Eternal Fortune Global Series offered at BOC Life's sole discretion in the new policy currency, without (i) providing any evidence of insurability, (ii) surrendering the current Policy or (iii) changing the Policy Date and Policy Issue Date of the current policy, provided that all of the following conditions are met: (i) the Application for currency exchange must be submitted by the Policy Owner within 31 days on or after any Policy Anniversary commencing from the 3rd Policy Anniversary; (ii) there is no premium(s) in default or outstanding Indebtedness under the policy; (iii) there is no claim in progress under the policy; (iv) the Notional Amount of the policy following the currency exchange must not be less than the minimum Notional Amount BOC Life permits at the time of the application; (v) the Application for currency exchange cannot be withdrawn or changed once made; (vi) the Policy Owner can submit an Application for currency exchange only 1 time during a Policy Year; and (vii) the Policy Owner provides such other information as may be requested by BOC Life in processing the application for currency exchange. The new policy currency will not be available for selection if it is demonetized by the issuance country or region at the time of currency exchange. The acceptance of any Policy Owner's application for currency exchange will be entirely at BOC Life's discretion, and subject to such other terms and conditions as BOC Life shall determine from time to time. The terms of the policy will be revised to follow all benefits, options and other policy terms as provided by such new plan, which may be significantly different from the Basic Plan of the original policy.

Significant differences include but are not limited to: product features (e.g. benefits, policy terms and conditions, investment strategy, portfolio of target assets and the return and restrictions of relevant investment) and policy value (such as policy value will be adjusted significantly (higher or lower), and may be relatively less than the Total Premiums Paid). If the customer exercises the Currency Exchange Option within the premium payment term, the subsequent premiums will be adjusted.

If the Policy Owner intends to apply for the Currency Exchange Option in the future, please contact BOC Life for details and further handling.

The Notional Amount shall be rounded off to the nearest integer after exercising the Currency Exchange Option. BOC Life will determine and adjust the Notional Amount, guaranteed and non-guaranteed policy values, future premium(s) due and payable (if any) and interest rate for the dividend accumulations (if any) in the new policy currency based on factors including but not limited to the prevailing market-based currency exchange rate as determined by BOC Life from time to time, the investment yield and asset values of the existing and new underlying portfolio of assets, and/or the transactions from the existing assets to new assets. Any dividend accumulations under the policy will be adjusted according to the prevailing market-based currency exchange rate as determined by BOC Life from time to time. The Total Premiums Paid for the policy after currency exchange will be adjusted according to the new Notional Amount of the policy, and will become the basis for the calculation of Death Benefit, Additional Accidental Death Benefit (if applicable), Accidental ICU Benefit (if applicable) and other benefits (if applicable) of the policy. All supplementary benefit(s) (if any) will remain in force and be changed to the new policy currency. If the chosen new policy currency is not offered under such supplementary benefit(s) or such supplementary benefit(s) cannot be attached to the new plan after currency exchange, such supplementary benefit(s) will automatically end when the currency exchange takes effect. Currency Exchange Option is subject to the prevailing rules and conditions of BOC Life. For details, please refer to the provisions issued by BOC Life.

The Policy Owner should evaluate in detail for the differences between the offerings of the original plan and the plan available for currency exchange under the Eternal Fortune Global Series at that time, and consider whether the relevant product meets his/her own individual needs, and should not convert to the plan solely for the sake of exercising the Currency Exchange Option. The approval of application to exercise the Currency Exchange Option and the currencies available for selection when exercising the option will be subject to relevant applicable laws and regulations.

2. The Policy Owner may make an application to transfer certain policy values of the original policy to a separate new policy or multiple separate new policies ("Split Policy"), without providing any evidence of insurability, provided that all of the following conditions are met: (i) the Application for policy split can only be submitted by the Policy Owner after the Basic Plan is paid-up or after the 3rd Policy Anniversary (whichever is later); (ii) there is no premium(s) in default or outstanding Indebtedness under the original Policy; (iii) there is no claim in progress under the original Policy; (iv) the respective Notional Amount of the original policy and the Split Policy following the split must not be less than the minimum amount permitted at the time of the application; (v) the Application for split cannot be withdrawn, changed or reverted once made; (vi) the original policy can only be split once during a Policy Year; and (vii) the Policy Owner provides such other information as may be requested by BOC Life in processing the application for split. The acceptance of any Policy Owner's application for split will be entirely at BOC Life's discretion, and subject to such other terms and conditions as BOC Life shall determine from time to time.

Upon BOC Life's approval of the application for split, certain policy values of the original policy will be transferred to the Split Policy and the Notional Amount of the original policy will be reduced. All terms and conditions of the Split Policy will follow the original policy; save and except for the condition where Accidental ICU Benefit has been paid under the original Policy before split, the Accidental ICU Benefit will not be applicable to the Split Policy and the original policy after split. The Policy Date and Policy Issue Date of the Split Policy will be the same as the original policy. Past performance is not indicative of future performance. The actual amount received may be higher or lower than the estimated amount. BOC Life reserves the right to change them from time to time. If the Policy Owner chooses to withdraw the Annual Dividend (if any) and/or interest accumulated (if any), the Annual Dividend (if any) and/or accumulated interest (if any) withdrawn will no longer be accumulated as part of the total cash value and the total Death Benefit of the policy. The total cash value, the surrender value and the total Death Benefit of the policy will be reduced accordingly. Annual Dividend accruing on the 1st Policy Anniversary (if any) shall be credited after the 2nd Policy Year's premium has been paid in full. Nevertheless, no Terminal Dividend will be payable if the Death Benefit reaches the upper limit in the event of death of the Insured. For details, please refer to policy documents and provisions issued by BOC Life.
